Copper State Communications

ATTN: **Scott Kerbaugh**, Structured Cabling Manager & **Mike Wilson**, Sales Engineer
CC: Dave Gilson, Infrastructure Supervisor

Gentlemen,

You did it again!

CSC worked with my client Bright Beginnings Charter School and took a unique and challenging situation (interfacing two different structures / genres of building construction and connecting them via aerial fiber optic cable) and made it work more effectively than they had hoped for.

It's that unselfish team mentality with the great results that has forced me to make (602) 455-3220 <Copper State Communications – Structured Cabling> a top speed dial number on my phone.

Your success combined with our internal team support for Bright Beginnings Charter School has assisted in the children's ability to learn – the goal of any school.

Additionally, when schools look to I.T. Done Right for guidance, we are always presenting the best value to them – and Copper State always meets that level for us.

We look forward to the opportunity to work with Scott, Mike, Dave and the Copper State Communications team whenever possible.

See ya on the next project!

A handwritten signature in blue ink, appearing to read "Joey Sawyer", with a stylized flourish at the end.
