

2/1/2018

Dear Bob,

Just wanted to take a minute to thank you for the outstanding work that you and the Copper State Communications team performed during my hectic move. Moving a company is always stressful, however meeting my 2-week timeframe to install cabling, access points, build my network and install a phone system was truly remarkable and much appreciated. Working with a company that was able to fulfill all of my technology needs under a single roof turned out to be a great choice and made my life much easier.

Because I was so busy, one of the things I appreciated most about working with CSC, was how your team (Dave Gilson was great) took charge and worked directly with my property manager, internet carrier and construction crew to ensure my timetable was met. The constant flow of information between myself and Dave gave me the confidence to be able to focus on my business and not on technology issues.

I will definitely recommend Copper State Communications to my friends and business network, for any technology needs. Look forward to working with you again soon!

Thank you again!

Wrex Lindsay
President, CEO
